Concepts
- Full Lifecycle Software Development
- Cross-Team Collaboration

Education

2019 - 2021
Southern Alberta Institute of Technology
Diploma of Software Development
GPA: 3.92/4.0

Seol Hi Kim
Intermediate Frontend Developer

I approach every project with **keen interest** in processes and best practices. My focus is on delivering **excellent solutions** on time, according to the project's priorities. Once a project is completed, my mind is always looking for ways to **improve myself** and **future projects.**

Experience

March 2022 - September 2023
Neo Financial
Fullstack Developer

- Projects for investment product users, adhering to strict compliance and timelines. Managed backend and frontend development tasks, enhancing project management skills. Demonstrated the importance of teamwork and collaboration in a challenging yet rewarding environment.
- Facilitated cross-team collaboration, working closely with multiple engineering teams to streamline the onboarding process for new product launches.
- Enhanced application layouts using CSS Grid and contributed to the creation of a new React component library, improving UI consistency and developer efficiency.
- Documentation of workflows and processes, significantly improving the onboarding experience for new engineers and enhancing team knowledge sharing.
- Committed to professional development and continuous learning, staying abreast of emerging technologies to drive innovation and maintain a competitive edge in product development.
